Pitch board

Short Pitch: I am a 3d artist, with a background in game development tools. I am rehearsed in C#.

Long Pitch: I am looking to break into the realm of game development. I hope to make a name for myself in the field of 3d art. I can do work with game development tools or coding. I am very well-rehearsed with office work with my Microsoft Office Master Certification.

Personas: 2-3

Employers- Well known person in the realm of game development. Looking for new talent, and a 3d modeler! The field of concept design is heavily over saturated. Wants professionalism and good work done quickly

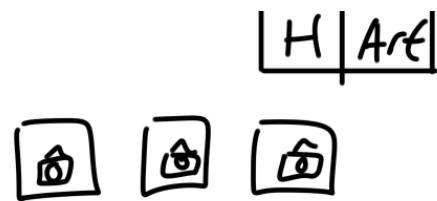

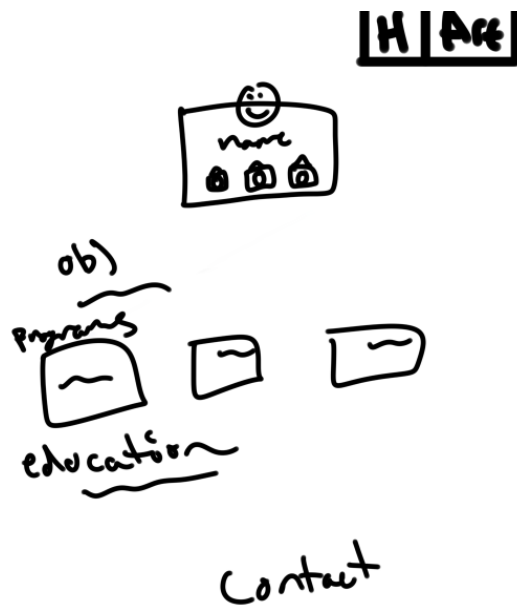

Competition- Other 3d artists, looking for what other aspiring game artists are doing and how they are building their portfolios. Possible ally or coworker later.
